

Investment Strategy Calculator

Compare loan-based and SIP investment strategies

How to Use This Calculator

[Hide](#)

1. Choose Strategy Type

Strategy A: Take a lump sum loan and invest in gold/stocks.

Strategy B: Invest monthly via SIP in gold/stocks.

2. Configure Parameters

Adjust amounts, interest rates (0.1% precision), expected APR for gold/stocks, and allocation ratio.

3. Save & Compare

Click "Add Strategy" to save. Add multiple variations to compare them on the chart.
